DASINDU RAJAPAKSHA

Intern Software Engineer

ABOUT ME

I'm a third-year Computer Science undergraduate who genuinely loves the process of learning. I'm the kind of person who gets excited about a new framework just to see how it works, and I bring that same curiosity and positive energy to everything I take on — academics, side projects, or creative work behind the camera.

EDUCATION

BSc. (Hons) Computer Science
University of Plymouth
2024 - Present

G.C.E. A/L (2021)
St. Joseph's College, Anuradhapura
Stream: Commerce, BBS

PROJECTS

Blindify — Project Approval System

University coursework project: a blind-review platform for evaluating project proposals fairly by matching reviewers to submissions through a custom IBlindMatchEngine interface. Implemented four distinct user roles with ASP.NET Core Identity, wrote unit/integration tests with xUnit and Moq, and authored a full technical report documenting the system design.

Tech: *ASP.NET Core MVC, C#* Click to See...

MobileShopPOS — Point of Sale System

End-to-end retail management system with full CRUD for products and customers, a JavaScript-driven point-of-sale cart interface, automated bill generation, and a live sales dashboard. Integrated Gmail SMTP (via MailKit) for email receipts and Twilio for SMS notifications, deployed locally via IIS.

Tech: *ASP.NET Core, SQL Server, JavaScript* Click to See...

Student Management CRUD App (Firebase)

Cross-platform CRUD application for managing student records with Firebase as the backend data store.

Tech: *Flutter, Firebase, C++* Click to See...

Stoxy — Inventory Management Application

Cross-platform inventory tracking app with authentication, dashboards, and stock management screens, built and tested on Android emulator.

Tech: *Flutter, Dart* Click to See...
